TO WHOM SO EVER IT MAY CONCERN

Date: 27/11/09

This is to certify that M/s. Rishabh Instruments Pvt. Ltd., Nashik has successfully completed the installation of Rishabh Energy Management System (RISHEMS) in M/s. ESSAR Steel Limited (CPP), Visakhapatnam, India and we are able to get the following benefits from it:

- Online monitoring and trending of electrical parameters of each feeder which helps us to monitor the trend of demand parameters
- Monitoring of Single Line Diagram which help us to monitor the total plant electrical systems
- Generate Reports in various formats including hourly consumption of feeder, 3 shift consumption & Difference, monthly report, etc. along with the feeder-wise TOD report
- Historical trending of various feeders
- After sales services are found satisfactory.

The trends and reports in RISHEMS are very much helpful in monitoring and analyzing the behavior of electrical parameters and consumption pattern of various feeders in the plant to bring down energy consumption and controlling energy cost.

Yours sincerely,

Mr. Satyajeet Singh Chouhan
Dy. Manager - I & C
Captive Power Plant
