## To Whomsoever It May Concern

This is to certify that M/S EnergySolution Labs Pvt. Ltd - ESL (100% subsidiary of M/S Rishabh Instruments Pvt. Ltd. - Nashik) has successfully implemented the Energy Management System (EMS) at our ACC Limited - Thane (Mumbai) facility.

Since Aug 2014, ESL has deployed **MARC system** to monitor energy meters installed in our admin area. User can monitor each building load status. The analytics offered in the MARC system is very useful for getting actionable alerts towards energy conservation and machine through-put along with operator's performance. ESL has provided some custom reports to make our daily TOD based energy consumption analysis more effective and to make more actionable road map for energy conservation task. The individual harmonics analysis report is very useful

Support after sales receiving from ESL team is also appreciable. We recommend ESL products and services for such monitoring requirement.

Thanking you,

Mr. Sunil Borate  
Manager Electrical Maintenance
