To Whomsoever It May Concern

This is to certify that M/S EnergySolution Labs Pvt. Limited (100% subsidiary of M/S Rishabh Instruments Pvt. Limited - Nashik) have successfully implemented the Energy Management System ("RishEMS") solution architecture for total 120 meters in the month March 2014.

RishEMS software customized as per our requirements. The solution architecture has utilized the plant's existing LAN infrastructure to save big amount of cabling rework. RishEMS enables electrical dept. to gather energy data and making desired reports easily. Till date using the RishEMS system, we have identified the energy saving opportunities and also can track the results after corrective action towards energy efficiency achievement. EMS system helping us to reduce man hours to collect required energy data from whole plant and also its highest accuracy and reading resolution. So can utilized the same manpower in other productive works in the plant and maintenance.

The EMS team from ESL-Head Office is very much prompt in support whenever required after sales. We recommend this product for EMS requirement in industries.

Thanking you,

With regards,
