TO WHOM SO EVER IT MAY CONCERN

This is to certify that M/S Energy Solution Labs Pvt. Ltd. ESL (100% subsidiary of M/S Rishabh Instruments Pvt. Ltd. - Nashik) has successfully implemented the Energy Management System (EMS) at our **Britannia Industries Limited, Ramanagara.**

In the month of Nov 2019, ESL has deployed **MARC system** for our Energy Management System requirement. The **MARC system** offers us live monitoring of all the feeders and load comings in the different stages of our biscuit manufacturing process like ovens, mixers, compressors, pumps, etc. Prioritized loads. Further the analytics offered in the **MARC system** is very useful for getting actionable alerts towards energy conservation and machine through-put along with operator's performance. Using alarm facility given in the the **MARC**, we can get the faults or accident pron events on near real time to avoid the major loss in energy as well as production downtime.

Support after sales receiving from ESL team is also appreciable. We highly recommend this product as solution in Food and Breweries industries like us.

Thanking you,

Mr. Santhosh Kumar
