TO WHOMSOEVER IT CONCERN

This is certify that M/s. Rishabh Instruments Pvt. Ltd. Nashik has successfully completed the installation of Rishabh's Energy Management System (RishEMS) in our plant, "GlaxoSmithKline Pharmaceuticals Limited, Worli Mumbai (MH) India".

The system has been useful in tracking and solving problems related to our system. Additionally we could focus on below points which made our day to day monitoring simpler;

1. Online monitoring and trending of electrical parameters of each feeder which helps in closely monitoring demand
2. Single line diagram helps to monitor the plant's electrical system
3. Generate reports in various formats including hourly consumption of individual feeders
4. The characteristics and effect of different electrical parameters on distribution systems are effectively identified and analyzed to control losses.
5. After sales services is satisfactory.

The trends and reports in RishEMS are very much helpful in monitoring and analyzing the behaviour of electrical parameters and consumption pattern of various feeder in the plant to bring down energy consumption and controlling energy cost.

Best Wishes,

For GlaxoSmithKline Pharmaceuticals Limited,

R. Sundaresan
Senior Administration Manager
