RISH OPTIMA VAF

Multi-Function Digital Panel Meter

RISH OPTIMA VAF measures important electrical parameters in 3 phase 4 Wire, 3 phase 3 Wire and 1 phase Network & replaces the multiple analog panel meters. It measures electrical parameters like AC Voltage, AC Current, Frequency & many more. The instrument also has an optional limit switch.

Applications:

- Distribution Panels
- Electrical load monitoring
- Genset, Test Benches and Laboratories
- Motor Control Panels

Product Features:

True RMS measurement:

- ▶ Measures distorted waveform up to 15th Harmonic.

Onsite programmable:

- ▶ Onsite Programmable System Configuration 3PH4W / 3PH3W and Single phase.
- ▶ Onsite Programmable CT ratios and PT ratios

Limit Switch (Optional):

- ▶ Potential free, very fast acting relay contact configurable as limit (alarm) switch. The instrument will trip the relay if the programmed parameter exceeds the programmed Trip Limits.

3 line 3 digits Ultra Bright LED display:

- ▶ Simultaneous display of 3 different parameters.

Run Hour, ON Hour, Number of Interruptions:

- ▶ Run Hour records the number of hours load is connected. ON Hour is the period for which the auxiliary supply is ON. Number of Interruptions indicates the number of times the Auxiliary Supply was interrupted.

RPM Measurement:

- ▶ The instrument display Rotation per minutes for generator applications. Number of poles can be set on site depending upon application requirement.

Storage of Parameters possible

- ▶ The instrument stores minimum and maximum values for System Voltage, System Current, Run Hour, ON Hour & number of Interrupts. Every 60 sec stored values are updated.

Low Back Depth:

- ▶ The instrument has very low back depth (behind the panel) of less than 55 mm.

Parameter Screen recall:

- ▶ In case of power failure, the instrument memorizes the last displayed screen.

Onsite selection of Auto scroll / Fixed Screen

- ▶ User can set the display in auto scrolling mode or fixed screen mode locally via front panel keys by entering into Programming mode.

Enclosure Protection for dust and water:

- ▶ Conforms to IP 50 (front face) as per IEC60529

Compliance to International Safety standards

- ▶ Compliance to International Safety standard IEC 61010-1- 2010

EMC Compatibility

- ▶ Compliance to International standard IEC 61326
