### Product Features:

#### ► Cap for Connector

Protective cap for connectors on either side of the CT ensures that the terminal is well covered from external entities. The cap also contains provision for sealing.

#### ◀ Side Mounting Provision

CBCT can be mounted both horizontally as well as vertically considering the practical challenges occurred while on site installation.

#### ► Cable tie Clips

Cable tie clips are located on the CT to ensure that the busbar/cable is centrally aligned so as to get absolute output. The Cable tie clip should be ordered separately.

#### ◀ Vertical Cable Tie Mounting

Vertical mounting is basically provided in all categories of CT, although vertical mounting with the help of cable tie gives more flexibility while on site installation.
